

FlyBase Survey: Fly Lab List

# Survey Summary

## November 2023

## Introduction

We recently created the [Fly Lab List](#) aiming to include all active *Drosophila* labs around the world. This list can be sorted by clicking on the arrows next to the column headers and can be searched by using the browser's 'Find (in page)' command.

This is an ongoing project, and we encourage researchers to check whether their labs are represented in the list. If not, they can add their labs using this [link](#), modify lab information using this [link](#) or opt-out using this [link](#).

## FlyBase:Fly Lab List

The 'Fly Lab List' is an ongoing project aiming to generate an accurate list of all active labs undertaking a substantial fraction of their research using *Drosophila* (any species of *Drosophila*).

The table below can be **sorted** by any one column, and you can use your browser's 'Find' command to **search** the table. The current list can also be **downloaded** as an [Excel file](#).

The following forms are available to add/revise/remove your entry:

- If your lab is not on the list and you wish to **add** it, please use this [form](#). Note the PI/Lab must have a website to be included.
- If you wish to **revise** your lab's entry, please use this [form](#).
- If you wish to **remove** your entry from the list, or do not consider your lab to be an active Fly Lab, please opt out using this [form](#).
